"My ophthalmologist suggested that I try Oasis Tears Eye Drops a few weeks ago. I have been having a lot of trouble with dry eyes & consequent diminished vision since I had Lasik eye surgery about 3 years ago. I have tried several different brands of eye drops without getting relief that I need. The Oasis drops were different right away. It was amazing to only need to use eye drops 4 times a day instead of 6-10 times a day. They have relieved the dryness in my eyes much better than other drops and my vision has improved in the past couple of weeks. I also am very pleased that these drops are small so I don't have tears running down my cheeks and a recovery time before I can see. These drops are so easy, work better and are much more convenient than others. I have also recommended these drops to family members who have trouble with dry eyes. So glad to be able to use this better product. Wish they were available in stores also. Thank you."

Glenna C., California

"I love the tears! I really think your tear is one of the best, if not the best on the market! I am following your suggestion of placing a drop on the patient's eye while in the exam chair. They can tell a real difference. They really do last long on the eye."

Michael H., California

"...I especially love the eye mask! I use it every day. It also helps before or after my Restasis drops, because the drops burn. I highly recommend the mask."

Norma H., California

FORM FIT®

HYDROGEL CANALICULAR PLUGS

LONG TERM OCCLUSION

FORM FIT® is truly a one size plug solution. Once inserted into the canaliculus, FORM FIT® hydrates in approximately 10 minutes. As it hydrates, FORM FIT® increases in size until it completely fills the vertical canalicular cavity.

HOW IT WORKS

FORM FIT® is made of a safe and biocompatible hydrogel material that expands into a soft, pliable, gelatinous material when it contacts tear film. FORM FIT® securely conforms to the vertical canaliculus so there is no need for a cap on the end of the plug. This greatly increases patient comfort and decreases foreign body sensation.

PRODUCT FEATURES

- Hydrates in approximately 10 minutes
- Easily removed via irrigation of the tear duct
- Biocompatible, no foreign body sensation
- Sterile
- Conveniently pre-loaded in inserter
- 0.3mm, one size fits all

"I have Sjögren's and dry eyes are one of my symptoms. I literally had dry patches on my eyes. I needed to have a product I can depend on to keep them hydrated and stop that gritty itchy feeling. I know it may sound cliché, but it's true! My eyes are the desert and you are my Oasis! I've tried so many products, which means I've spent a lot of money. Not anymore. I've found a product that not only feels good when I put it in, but continues to feel good. I was so frustrated, but not anymore. Thank you OASIS!"

Charlene D., New Jersey

"I love your product. It is the only thing that seems to help my eyes since my surgery 3 months ago. After my epi-lasik I had numerous erosions and was in total discomfort no matter what the eye doctor gave me for eye relief. I asked if he didn't have any other new products that I could try that might give me more relief for the dryness in my eyes. He said he had a new product... Oasis TEARS PLUS. From the first day I used it my eyes have felt so much better. I am at the point one month later that I don't even feel the dryness everyday when I wake up. Thanks for your product."
